# **4850PDRI-PH**

## Heavy Industrial RS-422/485 Isolated Repeater

#### ✓ IEEE-61850-3

- ✓ IEEE 1613
- ✓ -40 to 85°C Operating Temperature
- ✓ Rugged IP30 Metal Panel Mount Case
- ✓ 50G Shock, 4G Vibration
- ✓ 2kV Triple Isolation

#### ✓ 10 to 48 VDC Input Power

The ILinx™485OPDRI-PH is our premium Heavy Industrial RS-422/485 Isolated Repeater. Designed for rugged industrial environments, it has been put through some of the most exacting compliance tests in the industry. Meeting the requirements of IEC 61850-3 and IEEE 1613, it is suitable for installation in electrical substations. These specifications are more stringent than the NEMA TS1/TS2 requirements for transportation applications. Powerful isolation on both data ports protects your equipment and data from damaging ground loops and surges. Additional isolation on the power supply circuits adds a third degree of protection.

Packaged in a rugged IP30 metal case, it extends full or half-duplex RS-422/485 signals an additional 4000 feet and allows you to add another 32 nodes to your network. Our bitwise enabled circuitry automatically detects the data rate without setting a DIP switch.

Remember, when it comes to reliable communications in harsh industrial environments, B&B Electronics' ILinx™ brand is your number one choice.
