

Auto-Run Installation

Insert software into the CD-ROM drive. Installation will begin automatically.

If Installation Does Not Start Automatically

- 1. Choose Start\Run
- 2. Type the letter of the CD-ROM drive followed by the filename "Setup.exe". (For example "D:\Setup.exe".)
- 3. Click on OK and proceed with installation.

Note: During installation, you will be asked to enter the serial number of your copy of Easy-Mark. The individual serial number for your program can be found on the inside cover of the software case.

Start with existing CAD drawing with identifiers

Step 1:

Launch CAD-Connect tool from within the design software

Step 2:

Select and organize identifiers

Step 3: Choose the output method for the selected identifiers
